

## Syllabus of Module

# 8. Sport Law

**Lecturer: Mgr. Štěpán Ciprýn**

### Module Annotation

Introduction to the study of sports law, the relationship between national and European law, disciplinary proceedings, doping, spectator violence, corruption, legal liability for sports injuries, the legal nature of sports rules, contractual relations between professional players and clubs, legal liability in sport, case law of European courts in relation to sport.

### Module Objective

The aim of the module is to introduce students to the field of sports law, which deals with various types of legal transactions related to sport. The module introduces students to the fact that sports law intervenes with civil, labour, commercial and criminal law. Using examples and case law, we will show that this is a specific legal sector in which national, international and EU law is mixed with the legislation of sports clubs, associations and organisations.
