

MSc Environmental Management

Modules of the specialization:

Project Management
Human Resource Management
Fundamentals of Management
Finance and Economics
Lean Management
Environmental Policy and Ethics
Environmental Economics
Environmental Legislation and ISO
Standards
Optional Module (1)
Optional Module (2)

The MSc Environmental Management specialization encompasses a set of many management tools and principles that can help integrate environmental concerns into the day-to-day running of an organization. The objective of environmental management is to monitor the environmental impacts that affect companies, where an environmental impact is any change in the environment, positive or negative, that results partly or wholly from environmental behavior.

The MSc Environmental Management includes the following beyond the basic and optional modules: Environmental Policy and Ethics, Environmental Economics, Environmental Legislation and ISO Standards.
